Topic: Global Diversification in Investments - Documentation Study
Created by: Aneeta Zhou
Date: October 24, 2025

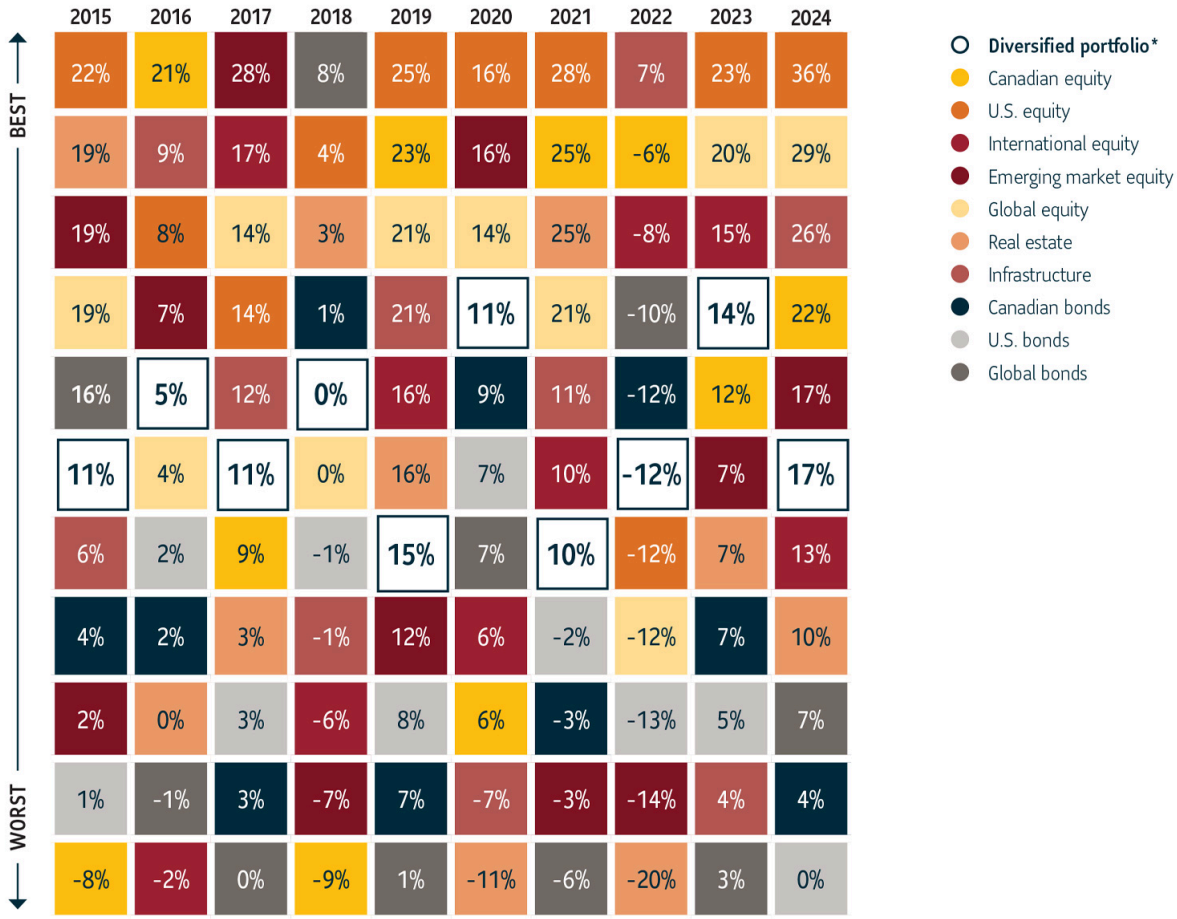

User Story: As a new investor, I want to complete an education module on diversifying global investments, so that I can globally diversify my portfolio when I start investing.

Task: Research existing resources and conduct documentation study on globally diversifying investment portfolios to get information for education modules.

Purpose of Study
The purpose of this documentation study is to research existing industry resources (specifically articles and documents) about global investment diversification. The gathered information will be used in the development of an education module for new investors on how to diversify portfolios globally.

Sources Reviewed

Company	Article	Link	Notes
Scotiabank	Understanding diversification and why successful investors rely on it	https://www.scotiabank.com/ca/en/personal/advice-plus/features/posts.diversification-can-help-manage-volatility.html	- Diversification helps lower the impact of market declines on an investment portfolio - Beneficial to focus on diverse geographic regions and currencies - Canada only represents 5% of global stock market
RBC	Going global to diversify. Why invest abroad?	https://www.rbcgam.com/en/ca/learn-plan/investment-basics/going-global-to-diversify/detail	- Global diversification means investing in financial markets outside of Canada - Benefits: reduce country specific risks, and take advantage of economic growth outside of borders - Average Canadian has 92% of assets tied to Canada
Holborn Assets	How to Create a Diversified Global Investment Portfolio	https://holbornassets.com/blog/investments/how-to-create-a-diversified-global-investment-portfolio/	- Goes over steps such as defining goals and risk tolerance, choosing right investment vehicles, and monitoring and rebalancing - Risks include dealing with foreign currencies, political regulatory risks, and even over-diversification

Key Findings

Based on the documentation study, the following topics should be considered when reaching out to external parties to create our education modules:

1. Important definitions
2. Benefits to diversifying portfolio
3. Risks to diversifying portfolio
4. Canada's representation on the global stock market
5. How to diversify portfolio

Note: include interesting facts such as "Canada only represents 5% of global stock market"

Conclusion

Global diversification is important when it comes to risk management and return optimization. Our educational modules should focus on both conceptual understanding as well as practical portfolio construction techniques.
